

Instructions for 2019 May Code Camp

3ECTS study credit (81h) achievement process.

The required steps to be able to receive the LTKY 5y challenge 2019 Code Camp credits (with assumed workload) is as follows:

1. Preparation work **(10h)**
2. Full time participation into the challenge solution build process **(35h)**
3. Personal reflection report (includes experience data from the course and what happened after final presentation) **(20h)**
4. Mid course and final solution presentation build up and participation work **(16h)**

Course evaluation will be either Passed or Failed!

For the language of the materials. You as participant, can **write the reports and give the presentations in Finnish or in English.**

If templates are considered to be needed, those will be provided by the course teacher. Any special detailed instructions for different parts of the course assignments including the **deadlines** will be delivered directly to those who participate into the Code Camp course. Instructions will be send by e-mail so be extra careful on filling up the course registration form correctly (and white list all **lut.fi** domain email addresses in your email configuration files).
